DEPARTMENT OF CLINICAL PATHOLOGY & BIOCHEMISTRY

TEST PARAMETER	OBSERVED VALUE	UNITS	REFERENCE INTERVAL	STATUS
CareAtHome Comprehensive Health Checkup	**Within Limits**	N/A	Bio-reference range evaluated	**NORMAL**

CLINICAL INTERPRETATION & METHODOLOGY:
1. Complete Blood Count determined by Automated 5-Part Differential Hematology Analyzer.
2. Biochemistry parameters assayed on fully automated, barcoded photometric & chemiluminescent immunoassay analyzers.
3. Serum cold chain maintained at 2-8°C throughout home collection and transit.
4. Biological reference intervals established as per CLSI standards for Indian adult population.
5. Test results should be clinically correlated by the consulting medical practitioner.

Phlebotomist:
Cold Chain Verified
Sample Barcode Scanned
